

TAKE ACTION ALERT

Stop DSTV's Proposed 24 Hour Porn Channel Today!

The media reports that MultiChoice is considering broadcasting pornography and the possibility of creating new sex channels on DSTV's satellite pay-TV service.

According to Jackie Rakitla, general manager of corporate affairs, "MultiChoice has been inundated with requests for adult content on DSTV, at this stage we're doing research to determine the extent of interest in porn, and we're looking at the feasibility of implementing such a service."

MultiChoice is using e-mails for market research purposes to test the interest in various options, like the broadcasting of "mixed pornography" (hardcore porn between 21:00 and 05:00 and soft porn between 05:00 and 21:00), hardcore porn 24 or soft porn 24 hours per day on DSTV.

Please participate in the survey today and reject DSTV's idea of a 24 hour porn channel. Please click here to do the brief survey: [DSTV Channel Survey](#)

Family Policy Institute has conducted extensive research on the harmful effects of pornography in the media on marriage and the family. Children have increasingly become the victims of sexually explicit images in the media. South Africa currently boasts the youngest rapist at 8 years old.

There are several reports of children accessing hardcore sexually explicit images which lead to child on child sexual molestation and rape. South Africa is cultivating a generation of perverts & rapists.

PLEASE DON'T BE DECEIVED Porn channels with pin codes & so called locking devices present very little challenge to an increasingly tech savvy computer generation.

Porn channels also reinforce the stereotype that women are mere sex objects. Porn demeans, degrades and objectifies women and promotes rape and sexual abuse of women & children.

Did you know that the vast majority of men (married) who use prostitutes are avid pornography consumers? Consequently, pornography fuels prostitution & destroys marriage & families.

PLEASE FORWARD THIS ALERT TO ALL YOUR CHRISTIAN FAMILY & FRIENDS & STOP PORN!

PASTORS PLEASE ALERT YOUR CONGREGATIONS IN CHURCHES THIS SUNDAY!

I plan to meet with Deputy Minister of Home Affairs, Malusi Gigaba soon to discuss legislation similar to the US Obscenity Law to protect women & children from porn degradation.

Please do the survey today and send a clear message to DSTV that the nation rejects their proposed pornography channel and the resultant sexual degradation of women & children.

Standing

Errol Naidoo
